

The 7th World Annual Congress of

Infectious Diseases-2018

Theme: World Dream of Eradicating Infection

Time: July 12-14, 2018 Place: Bangkok, Thailand

WCID-2018 will be held in **Bangkok, Thailand** during **July 12-14, 2018**. It is hosted by World High-Tech Society and supported by Thailand Convention & Exhibition Bureau, Singapore Society for Microbiology and Biotechnology, The Japanese Association for Infectious Diseases and Philippine Society for Microbiology and Infectious Diseases.

It will bring together scientists from the industry, academia, as well as leaders from healthcare providers, policy makers and investors to provide unique insights infectious disease research, including the advanced diagnostics, new antimicrobial drugs discovery and development. This event will also have a specific focus on co-operations between countries of the world through exhibitions and oral presentations by specialists in the field.
